

Submitter: Marisa Morby

On Behalf  
Of:

Committee: House Committee On Emergency Management, General  
Government, and Veterans

Measure: HB2601

Hi,

My name is Marisa and I've lived in Oregon for about 10 years. We absolutely need HB 2601 to achieve our climate goals and protect our future. There is no future with fossil fuels. We must divest, and we must have transparency and accountability on where these funds are allocated so that trust between the community and government is rebuilt. I support HB 2601 because there is no future for us if we continue supporting fossil fuels. I support HB 2601 because transparency and accountability are key to proper fund management. I hope that you support HB 2601 and vote to protect Oregon's wildlife, people, and our future.

Thank you,  
Marisa Morby
