

Submitter: Zachary Lesher

On Behalf Of:

Committee: House Committee On Education

Measure: HB3014

Good afternoon representatives,

I encourage you to support this bill, as it provides opportunities for school districts to create "bike buses" for students, like the much-publicized example in Northeast Portland. As the physical and mental health of students is a major issue for all of us, I believe starting each students' day with a safe and comfortable bike ride is an extremely cost-effective way to address this issue.

Thank you for your time.
