

Submitter: Sue Craig

On Behalf Of: Interfaith Earthkeepers Eugene Springfield

Committee: House Committee On Climate, Energy, and Environment

Measure: HB2215

There are excellent licensure, and a vote process by citizens of Oregon in place to protect us. This is a needed protection for any type of Nuclear processing plant that might be build. WE, people of many faiths, wish to help our earth and our fellow citizens. We must oppose HB 2215. To develop a Nuclear plant, no matter the size, the first componant must be how raiodactive residue will be safely contained. The use of Common Sense is hightly desierable in this instance. Please do not allow this bill to move forward.
