

I OPPOSE [HB 2419]...

Using [5%] (or even any amount) of GENERAL FUND revenues, acting as if you run a "State Bank," using a "linked deposit program" to a "qualified depository" which in turn issues low interest business loans ([2%] below whatever the Banks are charging above the Terminal Rate), to only a selected few categories of established, profitable business owners separated by; race, gender specific (women) and disabled veterans... Do you have any idea how much [5%] of GENERAL FUND revenues represents?

[HB 2763 (2023)] The Task Force to set up State Bank hasn't been Enrolled.

In addition to the sheer idiocy of [HB 2419]..."Systemic Racism" is being codified into Oregon Law via access to low-interest business loans made to the aforementioned selected groups. Answer this question, where is...
,,,"Equal Protection Under the Law?"
