

I OPPOSE [HB 2998]...

Taken from the Summary of [HB 2998], "Creates Oregon Soil Health Initiative. Describes goals of initiative. Describes responsibilities of state agencies and other entities participating in initiative. Directs Institute for Natural Resources to convene Soil Health Advisory Committee. Directs institute, in consultation with other entities, to develop Soil Health Roadmap."

Can someone tell me what did I get for all my tax money stolen from me to finance the, "Soil and Water Conservation Districts" and "OSU Extension Offices?"

Now you want to create additional "Agricultural Welfare" via [HB 2998].

I will say this much, the wishful thinking of creating, "The Natural Resources Institute" and the "Soil Health Advisory Committee" still has me laughing as if I consumed a bowl of psilocybin mushrooms.

There already exists so much information on how to build healthier soils you can't read it all in 100 life-times.

But, "The Natural Resources Institute" still has me zooming through the celestial universe, spacing-out with Jimi Hendrix.

You know, maybe you should place a tax on laughter-I'd be glad to pay for laughter not but not for stupidity.

David S. Wall

Mr. Oregon Concur...Soil Health 101: Build healthy soils from the top down. Place organic matter on "top of the soil" you want to improve.
