

Submitter: NW Coastal Range

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: SB72

In opposition of SB 72, I do not want a private corporation to have access to DMV records of this state, will choose non-participation to opening up my personal data to a outside organization. The legislature is bound and determined to spread citizens personal data among departments within the state, which have already objected. Get a no confidence vote of having my secure data passed onto a private vendor, in essence just spreads the data in a wider berth, and may cause more identity theft.

Apparently, this state desires to cut down on in-persons visits to the DMV (or eliminate DMV ALTOGETHER?).

Add more categories to submissions online at the customer customer portal online. Where there is an option to send relevant scanned or PDF document file download(s). DMV Administrative Assistants at Central DMV could process, approve by new document mailing, or deny by letter.
