

Submitter: k davis

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: HB2816

Oregon will not meet our overall clean energy goals without high energy use facilities being required to meet the same energy targets as electric utilities. HB 2816 will not hinder economic development and would stabilize the industry by bringing every company up to the same level and instill public confidence that the industry is participating in our clean energy transition. We need all hands on deck. Please support HB2816.
