Measure: HB2601

As a participant in Oregon PERS, I support this bill for 2 reasons. I think that as our country and the world moves increasingly to renewable energy industries, fossil fuel companies will become less reliable and/or profitable for investors. I also do not want the monies that my employers and I contributed to PERS to be used to prop up or in any way fund fossil fuel industries which are causing harm to my planet, which supports all life that I care about.
