

Submitter: Shauna McKain-Storey

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: HB2816

With polar ice melting and worsening wildfires, droughts and other extreme weather events, it is time to take serious steps like those proposed in this bill to reduce greenhouse gas emissions. Every year I dread the approach of summer and the threat of damaging or deadly fires, heatwave and drought that come with it. The widespread fires in 2020 and the deadly heatwave in 2021 were a wake up call for me. They should be viewed as a warning by my elected representatives, too!
