

Submitter: Diane Murray
On Behalf Of:
Committee: Senate Committee On Education
Measure: SB414

I am a parent of a child about to enter kindergarten. I was disabled by a post-viral chronic illness, that acts just like Long COVID, 10 years ago. The thought that my child could end up with the same condition as me is horrid; I don't want her to struggle like I have.

My partner is frighteningly ill with chronic issues that sap all their energy, and they have a weak immune system to boot. I really fear for their safety.

This bill would be a small step towards keeping my family safe. Please, please don't forget children and disabled folks when you make these decisions. We need you to champion our safety.
