There is no legitimate reason to lower the age to vote. Kids this age rarely have any idea what they intend to do with their lives, for the case could be made to increase the voting age to 21 or higher.

There's a reason 16 and 17 year olds who commit a crime are tried as a minor in the court of law (very rarely are they tried as an adult). So let's drop this nonsense and let kids become an adult before they can vote (or better yet, raise the voting age).
