Committee: Senate Committee On Education
Measure: SB551

the education system is supposed to teach education and not control private guns in private residences. You gestapo democrats are too willing to take away a right that is guaranteed by the constitution but yet you are intent on letting criminals have free reign on guns while protected innocent homeowners are put at risk by criminals who will ignore whatever you do? Again, I say that this right is guaranteed in the constitution and maybe you should read it if you are capable of that task. ?
