

Submitter: Helen Bryant

On Behalf Of:

Committee: House Committee On Rules

Measure: HB2694

Children's brains do not mature until after age 20, and that's why we have many restrictions on their decision- making. Teach children about civics and the voting process during middle and high school so that they can be ready to vote in adulthood. It's absolutely inappropriate and careless to consider giving children the awesome responsibility of choosing our leaders.
