

Submitter: Alexandra Bruckner

On Behalf Of:

Committee: House Committee On Early Childhood and Human Services

Measure: HB3076

I am happy to support HB 3076. I think in this day and age of increasing polarization between pro-life and pro-abortion advocates, this bill puts another tool in the belt of mothers and parents who don't want to outright kill their infant, but may realize how big of a commitment having a child can be. I think this bill will protect the lives of newborns and strikes a good middle-ground between pro-life and pro-abortion advocates.
