

Submitter: Robert Peter Mogielnicki

On Behalf Of:

Committee: House Committee On Education

Measure: HB3014

I wish to heartily endorse HB 3014 and give local school districts the right to use transportation funds for any form of transportation in any combination they wish. This should include paying for adult supervision of walking and bicycle school buses, school crossing guards etc. Such alternatives are good for children's health, good for air quality, and good for the planet.

I will spare you a story of walking 10 miles through raging blizzards to attend school ;
