

Submitter: David Zupan

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: HB2215

We strongly oppose HB 2215 which would violate the will of the voters statewide who passed the 1980 ballot measure requiring a federally licensed repository for high level nuclear waste before siting any kind of commercial nuclear power plant. That ballot measure also requires statewide voter approval before such siting. HB 2215 is irresponsible given the lack of safe nuclear waste storage and an anti democratic slap to the faces of Oregon voters which should be soundly rejected by your committee.

Respectfully,  
David Zupan
