

Submitter: Ann Colonna

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB426

I am very much in favor of SB 426. I have a child in the Portland Public School system and I feel it is important on his behalf and that of all school children to adopt a non-chemical pest suppression plan as a healthier option for our kids. Some play out in those fields everyday, especially for sports like soccer and track, and keeping them healthy and safe should be a top priority. Thank you.
