

Submitter: S O

On Behalf Of:

Committee: House Committee On Early Childhood and Human Services

Measure: HB3235

I am writing to express my support for HB 3235. I want to let you know what an additional \$1,200 per child would mean for my family.

It would mean a lot, as a single mom with two kids and low income. I can buy them the things they need, as new clothes they need and food they want. This year I got divorced from an abusive marriage and I am struggling to stand up on my feet. The last two weeks of each month my account is zero.

I support the Oregon Kids' Credit so that my family can get the support it needs.
