

Submitter: Susan Bolgiano

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: SB14

I would love to see rail passenger service brought back to Eastern Oregon. This would go through Baker City and would open up many more opportunities for the people in Halfway to more easily access, among other things, medical opportunities and family and friends. It would also mean more economic opportunity for our small communities.

Thank you for your consideration.

Susan Bolgiano
