

Submitter: Marsha Wilson

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: SB14

I love living where I do! But there are challenges that could be helped by the implementation of more rail service to this area! While I realize that there will likely never be rail service to my tiny community, it would be VERY helpful to at least have rail service closer!! Expanding rail service to eastern Oregon would be helpful....

Thank you for giving this issue your consideration!!
