Committee: House Committee On Rules

Measure: HB3206

Children of this age are not mature enough to understand the long term consequences of their decisions. They are driving by emotion not rational thought process's. Why would we allow them to make decisions that have such long term consequences? We do not allow them to smoke, because it will harm them, but they don't think long term. Same applies to drinking alcohol. Insurance companies have higher rates for young people, as they are the most reckless.
