

Submitter: Sandra Solomon  
On Behalf Of:  
Committee: Senate Committee On Education  
Measure: SB426

Please pass SB 426 to protect children's health in Oregon's Schools

I never got notices about pesticide sprays when my kids were in school, nor was I given the option to receive notice about sprays at the school. I never knew it was a requirement of the law.

Pesticide management (or mismanagement) issues should be addressed school districts with support and guidance from the Department of Education.  
End the unfunded mandate requiring adherence to the Oregon School IPM law.  
Follow the 2017 Healthy and Safe schools act. Pesticides must be reported just like other hazardous materials.

Keep schools safe - pass SB 426. Thank you
