

I OPPOSE [HB 2277]...as written

[HB 2277] interjects uncertainties "No one" wants to occur.

Questions arising from coverage's and who pays and what the plans will cover.

Questions concerning what happens if a company chooses badly and or goes bankrupt.

Never trust a "Third-Party Administrator" without State oversight. If Not, the Oregon Health Authority may come begging, again for more funding. There have been numerous allegations of "shady-dealings" with the TPAs.

David S. Wall

Mr. Oregon Concur.
