

Submitter: Laurie Dougherty

On Behalf
Of:

Committee: House Committee On Agriculture, Land Use, Natural Resources, and
Water

Measure: HB2998

Healthy soils improve crop yields, sequester carbon, reduce the need for pesticides and protect water quality. HB 2998 will expand resources and technical assistance for Oregon farmers and ranchers to better make use of practices that improve soil health.

I urge you to support HB 2998.

Thank you for the opportunity to comment.
