

Submitter: Kathy Wilmot

On Behalf Of:

Committee: House Committee On Rules

Measure: HB2694

There is no need to change the voting age requirements in Oregon. Testing results show our youth are LESS prepared now for life and making important decisions than in in the past. Critical thinking skills are no longer stressed in our educational system. Most do not have a foundation of understanding of how our government works. It would be reckless to have the voting age lowered for Any election.
