

Submitter: Gary Shaff

On Behalf Of:

Committee: House Committee On Education

Measure: HB3014

HB 3014 will provide school districts in Oregon with the flexibility that they need in order to best meet the transportation needs of their students. Those needs vary from school to school and district to district. HB 3014 will ensure that student transportation is reflective of the needs of the attendance areas of each school. Some schools may find that many of their students transportation needs can be best met through bike trains; wouldn't that be climate friendly. But ultimately, flexibility is essential to make that possible which HB 3014 will provide.

Thank you,
Gary Shaff
