

Submitter: Robert Paine
On Behalf Of:
Committee: Senate Committee On Education
Measure: SB551

The majority of people of Oregon are very aware that guns in the possession of competent, constitutional law abiding people are not the problem with gun violence in our schools, homes and worst of all, Democrat controlled cities. Nobody will forget the disaster that was Portland's 'Summer of Love' - lol. Who can ever forget the idiocy of the government and how it provoked and encouraged such an embarrassing spectacle of lawlessness and chaos displayed for all the country and world to see? Portland and to some degree Salem are embarrassments to any responsible, competent, decent Oregonian and to many people I speak with, these cities are avoided now. This violence has been allowed and one might even say has been purposefully encouraged through rampant, flagrant drug use, failure to prosecute criminal activity that in former years was clearly defined as crime and was prosecuted. The religious fervor of Democrats over hatred of individual liberty and common sense is the motivating force behind these attacks on our liberties. Any Republican member of government that thinks that the continued, relentless attack on our US Second Amendment is fine had better prepare for being unseated.
