

Submitter: LYNDA Countryman
On Behalf Of: Leave forests and timber alone
Committee: Senate Committee On Natural Resources
Measure: SB90

Clackamas county needs to be heard in the voting process!! Multnomah county decides for the whole State and They do Not care about the rest of the state!!! I live in one of the rural towns that still have lumber mills!! The timber is selective cut and taken by log truck to those mills! The only thing that needs to be changed is taking care of our forests against FIRES!!

I love living in our rural town Molalla!! Please don't change it!!
