

Submitter: Manuel De Aquino
On Behalf Of:
Committee: House Committee On Education
Measure: HB3014

Dear Representatives,

As you consider the application of HB 3014, please consider how important it is for students to get to school safely in all manner of transport. Certainly, bus transport must be safe. As well, students who get to school by walking, biking, scootering, etc. must be afforded a safe route and local school districts should be able to assess and support those safe routes.

Sincerely yours,
Manuel De Aquino
Ashland, Oregon
