

Submitter: Jasmin C

On Behalf Of:

Committee: Senate Committee On Health Care

Measure: SB404

I oppose this bill for a number of reasons but mainly because I feel it will have detrimental effects on our patients and access to potentially life saving therapies . Passing this bill could mean that a pharmacy or dispensing provider could not stock the drug because it cannot meet the state prescribed rate . It would also prevent a provider from getting reimbursed to cover acquisition cost if they acquired the drug before the price control was in place.

Ultimately , this bill will harm patients and our ability to care for them in the most optimal way .
