

**I OPPOSE [HB 2700]...On this first day of Lent, Blessed are the idiots, for they will inherent...nothing.**

**From the "Summary of [HB 2700]:** Modifies zero-emission and electric vehicle rebate programs to allow rebate for purchase or lease of electric farm tractor or repowering of farm tractor. Applies to electric farm tractors purchased or leased and farm tractor repowering costs incurred on or after January 1, 2024."

Whereas, I support the use of electric tractors for certain applications such as: pulling a small spray rig, use of a back-blade or front blade and the use of a brush hog with reservations.

**Whatever your puny minds are going cogitate, do not interfere with Farmers and the agricultural industry.**

Electric tractors do not have the lift capacity, the towing capacity and so many other uses that require more power than electric tractors have today.

Wait a while for the future to arrive before you prance about thinking you're saving the planet. Hopefully, the sponsor(s) of **[HB 2700]** will be "booted out of office" as a result of the next election cycle.

David S. Wall

Mr. Oregon Concur...Idiots...Man this is a tough crowd.
