

Submitter: NW Coast Range

On Behalf  
Of:

Committee: House Committee On Agriculture, Land Use, Natural Resources, and  
Water

Measure: HB2192

HB 2192 HOUSE COMMITTEE ON AGRICULTURE, LAND USE, NATURAL  
RESOURCES

Farm and Forest land should not be developed. The current laws of alternation and tear down/replace always been the rule of law and not the exception to land use in Oregon. This should not change.

Opposed to urban growth changes to enrich wealthy development corporations. Recently 500 acres in Tigard was exchanged for another parcel to build homes and redraw the urban growth boundary. Counties and Cities must come to the conclusion that sprawl of building out is not the answer. Should admit the realization of need for housing focus to multi unit vertical structures on the available land already within the inventory of urban growth laws of this state.
