Senate Committee on Education

To Chair Senator Dembrow and Vice Chair Weber and
members of the Education Committee

Support for Senate Bill 426

I am a resident of Seaside an advocate for keeping our
communities and all residents free from toxics which
includes pesticides and herbicides, both commonly used
in our nearby timberlands.

Schools should be a toxic-free place that is safe for
children to learn and to play! The staff should be safe
from harmful chemicals as well and be healthy and
strong to teach our children.

I don't have any children or grandchildren in the
Seaside Schools but I voted for the new schools. Now I
am paying taxes for these new schools and I want my
hard earned dollars to go to safe and healthy places.

Please support SB 426 and get it to the floor
successfully.

Nancy Holmes
Seaside, Oregon
