

Submitter: Summer Kathol

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB414

Adequate air quality within our schools has become an obvious need in recent years as viruses such as coronavirus-19 have run rampant around the world and wildfires have routinely made our air beyond unhealthy to breathe. Schools should always be a safe place for students to exist. Investing in the infrastructure to meet the basic need of clean, healthy air to breathe is an essential step to meeting this simple standard.
