Measure: HB2001

Hello,

I want to express my support of zoning changes in Oregon's cities. I believe zoning rules preventing density should be overridden. Additionally, I believe our Urban Growth Boundaries should be locked in place. Though I know that's not in this bill, I do believe it should be. We need to preserve wilderness, stop sprawl, and make cities walkable with more robust public transit. This will only happen if rules against density go away. Any amendments that help in this direction I am in complete support of.

Thank you,
Jonathan Greenwood
