

Submitter: Shauna McKain-Storey

On Behalf
Of:

Committee: House Committee On Emergency Management, General
Government, and Veterans

Measure: HB2601

As a recent PERS retiree, I support this bill requiring funds invested on my behalf to be channeled into areas other than risky fossil fuel industries and assets. I believe that these investments are unwise because they prop up industries that are outdated and likely to be replaced soon by newer forms of energy and technology. I also morally oppose these investments because they are contributing to the destruction of our planet's livability and the pollution of our air, land and water. There are retirement funds that do well without this kind of investment.
