

Submitter: Michael Medin  
On Behalf Of:  
Committee: Senate Committee On Judiciary  
Measure: SB422

I support sb422. I'm an avid motorcyclist and have been riding street motorcycles since 1986. I had a close friend rear ended in traffic and believe if he was able to lane filter, this horrific accident and others like it could be avoided. Also lane filtering performed responsibly can reduce congestion and keep air cooled motorcycles from overheating when stopped. My experience in Los Angeles California had been positive when lane filtering is legal. Motorists were mindful and would allow me to pass without issues. Please consider passing this bill, thank you, Michael Medin
