

Submitter: Jumaane Hill  
On Behalf Of: Jumaane Hill  
Committee: Senate Committee On Judiciary  
Measure: SB422

As a healthcare worker of 8 years at Salem Hospital in Salem, Oregon & an avid motorcycle rider of 5 years. I want this testimony to serve in support of SB 422 - Lane Filtering in Oregon. My reason's stem from not only the safety aspect for the riders, but also the increased awareness for drivers when riders are around. Lane Filtering would also help reduce congestion during increased traffic times, reduce idle / stop & go fuel consumption which would be a big step towards climate change throughout our green state.

Lane Filtering is legal in other parts of the world for the same various reason's I have listed above & would like to see it become legal in Oregon under certain conditions. Thank you for your time.
