

Submitter: Julia Henry

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB422

I am a female motorcyclist who supports the passing of SB422.

The passing of this bill would have immediate positive impacts on our local community and infrastructure.

Studies have shown these benefits are including but not limited to:

1. Increased rider safety (to avoid being rear-ended in stop and go traffic conditions)
2. Decreased traffic congestion
3. Decreased traffic emissions

Thank you for the support.
