

Submitter: Jen Hamaker  
On Behalf Of: 10000Concerned Oregonians  
Committee: Senate Committee On Natural Resources  
Measure: SB795

ONRI supports managing our state forests for the 'greatest permanent value.'

ONRI understands that managing our state forests sustainably and for the 'greatest permanent value' is critical to the health of our forests, economies of local counties, and to help mitigate forest fires.

ONRI believes 'greatest permanent value' includes sustainable harvest, which is clearly contrary to Oregon's stacked Court of Appeals.

Please manage our forests for the 'greatest permanent value' as defined before proven science didn't matter, our courts were stacked, and environmentalists emotionally charged propaganda penetrated our legislature.

Sincerely,  
Jen Hamaker  
Oregon Natural Resource Industries
