

Submitter: Peter Petersen  
On Behalf Of: Myself  
Committee: Senate Committee On Judiciary  
Measure: SB422

Travel 20+ miles per day in Oregon (work related). The amount of time spent along with the constant danger of being rear-ended (crushed between two cars) in stop & go traffic is getting very unmanageable. Also, me sitting there as a "mark" taking up space is really kind of absurd. Hope to see some real cognition of the problem and some common sense being used here by the committee. Thank you very much!
