

Submitter: Jen Hamaker

On Behalf Of: 10000 Concerned Citizens

Committee: House Committee On Climate, Energy, and Environment

Measure: HB3196

ONRI has watched the DEQ and now the EQC become weaponized against the citizens of Oregon.

ONRI opposes HB 3196 because we do not trust that the EQC extends open communication with those that will be impacted by this bill and their authority. We believe their directive is clear and it's not about working with or protecting the people of Oregon.
