

Submitter: Jodi Hanson

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB422

I am a motorcyclist and support SB 422 because it keeps traffic flowing, allows motorcyclists to avoid becoming hazards when their bikes overheat in traffic, and opens space for motorcyclists to avoid being struck by other vehicles. I can understand how it seems counterintuitive to those who don't ride, but slowly and safely moving through traffic is the safest thing to do because traffic often creates situations where a vehicle is not able to stop and strikes a bike from behind. This approach is very common internationally and relieves traffic by reducing the number of cars. Please support SB 422 and reduce traffic injuries and fatalities.
