

Submitter: Doris Dooley

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB603

Would like to know who or what Department will oversee the distribution of these funds to make sure monies are given to the appropriate individuals and not given out to people who do not need it. Money has so often been squanderd because no one is paying attention. Would also like to know who is deciding the person is truly one that will really take advantage of the money and use it to improve themselves and not a person who has an addiction who will spend it on the drugs. Doris
