

Submitter: Joshua Westfall

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB422

Please pass filtering through committee, but do it the same as CA for uniformity. I would love to see more people riding to work on their bike rather than burning 3x the gas in a large multiperson vehicle, but without surface street filtering it is simply too dangerous and inconvenient. Reduce traffic, reduce danger to motorcyclists, reduce greenhouse gas emissions. Surface street filtering is legal in most of the world and is an indispensable tool in traffic and greenhouse gas mitigation. Thank you for your consideration.
