

Submitter: JONETTE FLYNN

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB603

As a tax payer to this state for 36 years I strongly oppose this kind of entitlement. It only encourages more homelessness and more drug abuse. Throwing money at problems is not the solution. Look at all the money in a the big cities being spent on homelessness and show me data where it is helping. We need to stop encouraging drug abuse, stop encouraging homelessness or we will all be homeless after being taxed to death. We need to do something about the governments over spending and waste. Encourage homeless people to clean their lives up and get a job. Stop the inflationary practices so all Oregonians can thrive.
