

Submitter: john golden

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB422

I am a long time motorcyclist. I have been commuting in the Hillsboro, Tigard, and Portland highways on a motorcycle for the past 23 years. Everyone benefits when motorcycles are allowed to filter through low speed gridlocked traffic. We all know that the terrible highway traffic we have in Portland metro areas will only get worse and worse every year. Lane filtering will help alleviate some of that traffic. Please support SB422!

Thanks,
john golden
