Senate Committee On Natural Resources

Oppose SB 795

Chair Golden, Vice Chair Girod, and members of this committee,

I oppose Bill SB 795 because I feel it is going backwards. It will give power to the counties to sell off the now State Forests to private timber companies as demonstrated in the past. It will allow counties to not take care of the land's clean air, cool streams, and wildlife habitat.

Please, I urge you to be smart about our environment while it is possible, oppose SB 795.

Nancy Holmes,
Seaside
