

Submitter: Josie Alexander

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB854

This is an easy NO to SB 854. I see this bill is at the request of ODE. Considering ODE is a national joke, nothing should be granted to this department. ODE needs to focus on the basics of reading, writing, & math. Please do not continue to waste our tax payer \$ & kids time "learning" about something that won't move the needle of intellect.
