RE: Testimony in Support of HB 2697

To the House Committee on Behavioral Health and Health Care

My name is Julie Phillips and I am a nurse at Oregon Health and Science University Hospital in the Ambulatory Women's Health (OBGYN) Clinic

Management at hospitals across Oregon have shared dozens of messages praising nurses as "heroes," while, at the same time, ignoring our repeated pleas for assistance. To be frank, these last few years have been extremely difficult for nurses. We don't care about being called heroes; we want help.

We need more staff.

Safe staffing ratios are directly correlated with less medical errors. Would you want your loved one to be cared for by a nurse that was being stretched thin? We're human and it's easy to miss the little things when we've got a lot on our plate. Little things add up to big things QUICKLY with our critically ill patients. Being one of the most profitable critical access hospitals in Oregon, my hospital should be putting our patients before profits. It's the moral and humane thing to do. Our community deserves better. Oregon's nurse deserve better, and our patients deserve more staff.

Please support HB 2697 and give nurses what they really need: help.

Sincerely yours,

Julie W. Phillips, RN
